### **Company Profile**

GTP Equipments India Private Limited (Formerly, GURU Electronics) started its operations in the year 1994 as a manufacturer, distributor and dealers of UPS Systems, Power Inverters, Tube Light Fittings & Inverters and Power Inverters. Today, with the technological advancements and constant interests and feedback from the customer network we have steadily and constantly grown in our business specializations by presenting Energy-Efficient, Eco-Friendly and Quality LED Lighting and Solar Power Products into the market.

Our Organizations’ Objective is to:

**“Manufacture high quality and energy efficient products that are Economical, Eco-Friendly and meet the absolute need of the customers.”**

We believe that one of the important Core Element for an organization’s success in addition to Administrative capabilities, Process, R&D, Technology, and Quality & Delivery is its ‘Ability to adapt itself in a changing, challenging environment and provide the customers with quality products and services that meet their needs and requirements’. At GTP Equipments India Private Limited, we always ensure to have a watch over all these factors and continuously ensure to improvise ourselves in all these aspects.

Technology and R&D has been one of our keen areas of improvement. We have constantly strived to create and design products that are highly efficient and effective in meeting its purpose of use. At GTP Equipments India Private Limited we follow a process driven approach which helps us to deliver products as per schedule and at the same time assure the Quality in the Products and Services that we provide to our customers at an Affordable Cost.

Our Organization is registered with the Registrar of Companies with our factory setup in Keeranatham Coimbatore.

### **Products and Services**

The main Focus of our organization has been in the areas of Lighting and Energy solutions. The Lighting solution Product line up of our organization consists of LED based products that are sleek, energy efficient and have a long life (Compared to CFL products). Our LED based product line up consists of:

1. LED Rooftop lights for automobiles.
2. LED route board light for automobiles.
3. LED reading lights for automobiles.
4. LED Tower Lights.
5. LED Panel Lights.
6. LED street lights.
7. LED tube lights and bulbs.

Apart from LED Light manufacturing; our organization deals with marketing of UPS, Solar Module and Inverter products. The brands that we deal with have established themselves as one of the best in the market for their product build, aesthetics and quality. Our focus in the marketing area has been to assist an organization in widening their market reach by acting as a bridge between customers and the organizations.

For any further information on our products please visit [www.gtpequipments.in](http://www.gtpequipments.in). Also feel free to get in touch with us with your queries by writing to us at [info@gtpequipments.in](mailto:info@gtpequipments.in) with the details required and we shall get in touch with you.
